## Experience the future of 'Ageless Transformations' Call for a FREE cosmetic consultation

Ageless beauty is now as close as the super luxurious and futuristic "Shino Bay Cosmetic Dermatology & Laser Institute" (SBCDLI) located on Las Olas Boulevard in Fort Lauderdale.

Owner, Dr. Shino Bay Aguilera, a dual board-certified Dermatologic Surgeon and Fellow in Dermatology, is a highly recognized authority in laser and aesthetic medicine. An assistant professor of Dermatology for three universities, Dr. Aguilera is "The Top Requested" international keynote speaker and physician trainer for one of the world's leading laser manufacturers. This specialist is a master artist injector with all cosmetic fillers, Botox and Dysport, for natural looking, age reversing symmetry and enhancements.

Dr. Aguilera has had more than a decade of direct, advanced training on all the BEST Gold Standard Laser Technologies, learning directly from some of the world's leading laser physicists and experts that actually developed these technologies. As well credentialed as he is, Dr. Aguilera is equally the kindest, most Zen-like, down to earth specialist you will ever meet, making patients feel immediately comfortable.

His practice has been certified as the "Laser Center of Excellence" and serves as a physician-training center for the entire United States and Latin America. Only a select few centers across the nation truly offer this level of expertise and this quantity of leading edge technology, and back it with authority, credentials, "5-star concierge service" and an excellent staff.

Just as cell phone technology has evolved, so too has the world of cosmetic technology. Dr. Aguilera devotes an entire suite to high-end, laser technologies - the "Bentleys of Lasers." Each technology is optimally safe, fast, comfortable, and effective. His deep involvement with laser research and training allows direct access to the newest, best and most innovative technologies on the market. If it's new, if it's "hot" and if it provides optimal effectiveness, be assured it can be found at SBCDLI!

More than 20 of the latest, high-tech cosmetic technologies are available - including several, double laser treatments that are super efficient and cost effective. The most

advanced technologies and techniques are specially designed for age reversing aesthetic enhancements, rejuvenation and revitalization procedures. Wrinkles, tightness, scars, sun damage, veins, cellulite, stretch marks and much more, can be optimally treated at SBCDLI.

His high-tech beauty arsenal includes a high-end, state-of-the-art, Cynergy Vascular Laser System (one of few in Florida) to treat rosacea, veins, and portwine stains, plus dual laser facial rejuvenation, and a Co2 Micro-Ablative Laser for skin renewal, tightening and resurfacing that can be done in one visit. This procedure has displayed unparalleled success in treating damaged skin and advanced treatments like this have drawn patients nationwide and from Latin America and Europe. When patients walk through the doors of this state-of-the-art practice there is immediate peace of mind.

Dr. Aguilera's use of the best technology and latest techniques sets a new standard of excellence in achieving the goal of providing "ageless beauty."

If you want to be treated directly by a true cosmetic dermatologic specialist with impeccable credentials and best technologies, then look no further than SBCDLI.
