

SAVE THE COUTURE FOUNDATION!

Are you "Too hot to handle"? Be confident and completely eradicate underarm wetness and clothing stains. Protect your couture!

Problems with perspiration stains near your underarms (or anywhere)?

Excessive perspiration can be virtually eliminated for up to 10 months with Botox Cosmetic or Dysport and is a very popular treatment that will help your clothing last a lot longer, remain stain free and you will no longer have to be concerned about embarrassing, underarm wetness or wetness anywhere, hands, feet, back and wherever excessive perspiration is an issue. Also, no wetness also means freshness as, bacteria cannot form. Now you can wear your finest silks in summer without the sticking, staining and discomfort! Look your best and be kind to your couture!

This is "Must Have" treatment for many of our patients particularly if they live in any hot climate!

"Get Gorgeous for the Holidays"!
